PROFESSIONAL SUMMARY

Senior Javascript Engineer with 8+ years of experience building scalable, high-performance web and mobile applications. Specialized in React, React Native, TypeScript, NextJS and micro-frontend architectures. Proven leader in frontend transformations, developer productivity improvements, and end-to-end product delivery in startup and scale-up environments.

STANDOUT ACHIEVEMENTS

- Led a frontend architecture transformation to micro-frontends at Evive, reducing development time by about 45% and enabling parallel team workflows.
- Built and scaled a React + TypeScript enterprise component library, standardizing UI development and accelerating feature delivery across multiple teams.
- Established a CI/CD pipeline from scratch, cutting deployment cycles and improving release reliability across multiple environments.
- Architected hybrid mobile apps using React Native, enabling cross-platform deployment and reducing time-to-market for mobile features.
- Mentored and upskilled other engineers, contributing to team-wide adoption of best practices in frontend development and code quality.

TECHNICAL SKILLS

Languages & Frameworks: React, React Native, TypeScript, NextJS, JavaScript, ES6, Node.js, Redux, SCSS, CSS, Tailwind, HTML5, Styled Components, Jest, Docker

Architecture: Micro-frontends, Component Libraries, Responsive & Accessible Design

Tools & DevOps: Git, CI/CD, Webpack, Postman, Storybook, AWS, Google Cloud,

Salesforce Commerce Cloud, Fullstory, Microsoft App Center, Google Play Store, Apple App Store

- Agile/Scrum
- UX Optimization
- Responsive and Accessible Design
- End to end development
- Automated Testing
- Team Mentorship
- Cross Team Collaboration

PROFESSIONAL EXPERIENCE

Plusgrade | [points.com](https://www.points.com), Toronto, Canada

Senior Development Engineer | July 2023 - October 2025

- Served as a Subject Matter Expert (SME), partnering with product and engineering teams during pre-development to gather requirements, define technical scope, and align deliverables.
- Identified cross-team dependencies, established clear contracts, and translated initiatives into milestone-driven roadmaps and sprint-level tickets for predictable delivery.
- Broke down complex initiatives into milestone-based roadmaps and sprint-level tickets to support predictable delivery.
- Led end-to-end feature execution, collaborating with frontend and backend engineers through design, code reviews, merges, and production deployments.

- Enhanced React tooling and Admin platform features to support client transitions, improving delivery efficiency and user satisfaction.
- Improved system efficiency by introducing shared utility functions and modernized Node.js controllers to support new features.
- Contributed to frontend coding standards and best practices, strengthening code quality and cross-team consistency.

Evive | goevive.com, Bengaluru, India

Senior Technical Lead | *January 2021 - March 2023*

- Led the frontend transformation to micro frontends, reducing development time by 50%.
- Integrated FullStory to visualize user journeys, leading to informed design decisions that enhanced product usability.
- Architected hybrid mobile apps in React for cross-platform scalability.
- Built a CI/CD pipeline, significantly accelerating deployment and increasing reliability.
- Created an enterprise component library with React and TypeScript.
- Partnered with stakeholders to align technical and business goals.
- Mentored team members and promoted best practices in frontend engineering.

Lead Software Developer | *May 2018 - December 2020*

- Directed React and React Native projects, increasing code quality and team productivity.
- Managed API/JSON contracts with cross-functional teams.
- Elevated user satisfaction through frontend performance optimization.
- Integrated analytics to guide feature planning and user engagement strategy.

JavaScript Developer | *May 2017 - April 2018*

- Delivered cross-browser and accessible React applications.
- Led small teams in code reviews and agile workflows.
- Designed responsive UI components in collaboration with designers.
- Ensured compliance with project goals and web standards.

Intern - JavaScript Developer | *November 2016 - April 2017*

- Developed React apps with improved UX and accessibility.
- Supported code maintenance and issue resolution.
- Contributed to mobile app development using React Native.
- Assisted in milestone delivery and agile planning.

Others

Web Developer (Freelancer) | *August 2015 – November 2016*

Bengaluru, India

- Built web solutions using PHP, MySQL, JavaScript.
- Created responsive interfaces with HTML, CSS, and jQuery.
- Collaborated with clients and resolved technical issues.
- Ensured timely project delivery with effective communication.

EDUCATION

Master of Science (M.S.), Computer Science

Christ University, Bengaluru, India | April 2017

Bachelor of Science (B.S.), Computer Science

Techno India College of Technology, Kolkata, India | March 2014

High School - Science

Garden High School, Kolkata, India | March 2011
